NOTICE OF AVAILABILITY OF INITIAL STUDY NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION FOR THE PERRIS VALLEY CHANNEL LATERAL B, STAGE 4 PROJECT

PROJECT INFORMATION

The Riverside County Flood Control and Water Conservation District (District), in partnership with the March Joint Powers Authority (MJPA) and March Air Reserve Base (MARB) is proposing to construct the Perris Valley Channel (PVC) Lateral B, Stage 4 Project (Project), an approximately 6,000-lineal-foot underground reinforced concrete box (RCB) storm drain partially located within the limits of the city of Perris and lands owned by MJPA and MARB in southwestern Riverside County. The objectives of the Project are to: provide flood protection to MARB and the adjacent area by constructing the regional storm drain needed to convey 100-year runoff from the PVC Lateral B, Stage 5 facility to the existing PVC Lateral B, Stage 2 facility at Heacock Street; and provide adequate outlet to proposed developments west of the Project within the city of Perris. The Project's general alignment begins at the downstream terminus of PVC Lateral B, Stage 5 facility and continues south and east adjacent to the MARB west perimeter security fence before tying into the PVC Lateral B, Stage 2 facility at Heacock Street. The Project would be located mostly within MARB right of way.

REASON FOR PUBLIC NOTICE

In accordance with the California Environmental Quality Act (CEQA), the District has conducted an Initial Study for this project which analyzes potential impacts it may have on the environment. The result of this study shows this Project will not significantly impact the environment and a Mitigated Negative Declaration (MND) is proposed. The 30-day public review period begins on September 22, 2022. This public notice is to solicit comments, questions or concerns about the environmental analysis and project impacts.
